

Sárvár – Crystal clear experience

# Welcome

## *Sárvár- Quality at all prices*

Sárvár is a lovable town. Anyone can find what there are looking for. Behind all it's flutter you will find uncompromising professionalism. The palette is full: from premium quality super luxury hotel to the homey feeling of appartments for families. The older generations who wish to rest and be cured to the most young who trielessly look for adventures in the spa, at festivals and in the adventure park fit well side by side. Just like the musical fiestas in the castle are only a walk away from the intense silence of trees and bushes.

*Sárvár is a loveable town.*

*Every one can find what they like.*

# Harmony

Baden Baden, Bayreuth, Marienbad and Sárvár. Exceptional destinations in Europe. Different projections of the same thought. Medicinal places. Exceptional ones. Places where you don't just live, but can be cured as well. „Live” in the most noble sense of the word. A life where for an hour or more the gray agony of everyday life is transformed into holiday and crystal clear shining by the elements. This „goodness” radiates from everything here. An austere but unquestionably elegant living. The unison of creation is written by the sycamore trees along the walkways, the fountain paints' happy colors in the middle of the Town Square. On the frescos of the church St. Ladislaus breaks water, the Botanical Garden takes a deep sniff of air on a tired August afternoon silence. „*Harmonia Sarvarensis*” officially recognised as Health Spa City in 2012.

# Embrace

„Sanus per Aquam” – health through water – pampering and embracement. The force from the deep in the magic of rebirth. Life itself. It sleeps in two areas below Sárvár at 2000 meters depth, diluting all in itself at 83 degrees Celsius; the other is more mild at 43 degrees and is endlessly filling the pools of several hotels and the Spa of Sárvár. Spa, wellness, adventure and „medicina”. *Sárvár is the Citadel of the most modern era of Europe's Spa culture.*

## Care

Every guest feels important at Sárvár. Family leisure pools, wellness, therapy and beauty: unique in complexity can be found in one place. The spa massages, ayurvedic treatments, Thai massage and oriental therapies are done with expertise to guarantee the effects of the treatment.

*It is trough these that Sárvár creates a new quality on the palette of the physical and spiritual renaissance.*

## Royal pampering

His/ Her Majesty the guest... His / her wish is paramount... At Sárovar all guests will feel like royalty. But does anyone who chooses Sárovar as a destination know that within the walls of the Castle of Sárovar Louis the 13th, the last Bavarian King has died in 1921? This is one reason why the Royal Spa Association approved Sárovar's membership in 2004. A member of this association can only be a spa town, with royal ties justified by super high quality spa and hotel operators. *Such a honor has been awarded only to Sárovar among the spa cities of Hungary.*

## Living History

The first book printed in Hungarian, one of the first schools, the art works of Sylvester János and Tinódi Lantos Sebestény, the world famous fruit garden of Nádasdy Tamás, the model farm of the Wittelschbachs, the Nádasdys art collection most famous all over Europe, the intact Nádasdy Castle and Museum alloying renaissance and baroque, the archaic buildings of the city are all parts of the background making *Sárvár one of the most livable cities and health resorts of Europe.*

# Earthly Pleasures

The skies are always blue above Sárvár and the sun never sets. Fun and entertainment go hand in hand. Colorful historic games, music, dancing, international motorcycle meetings and endless number of festivals, food and drinks. ...and those who still had not enough can try the daring adventure park next to the spa.

*In reality Sárvár is a living and livable town.*

## Crystal clear experience

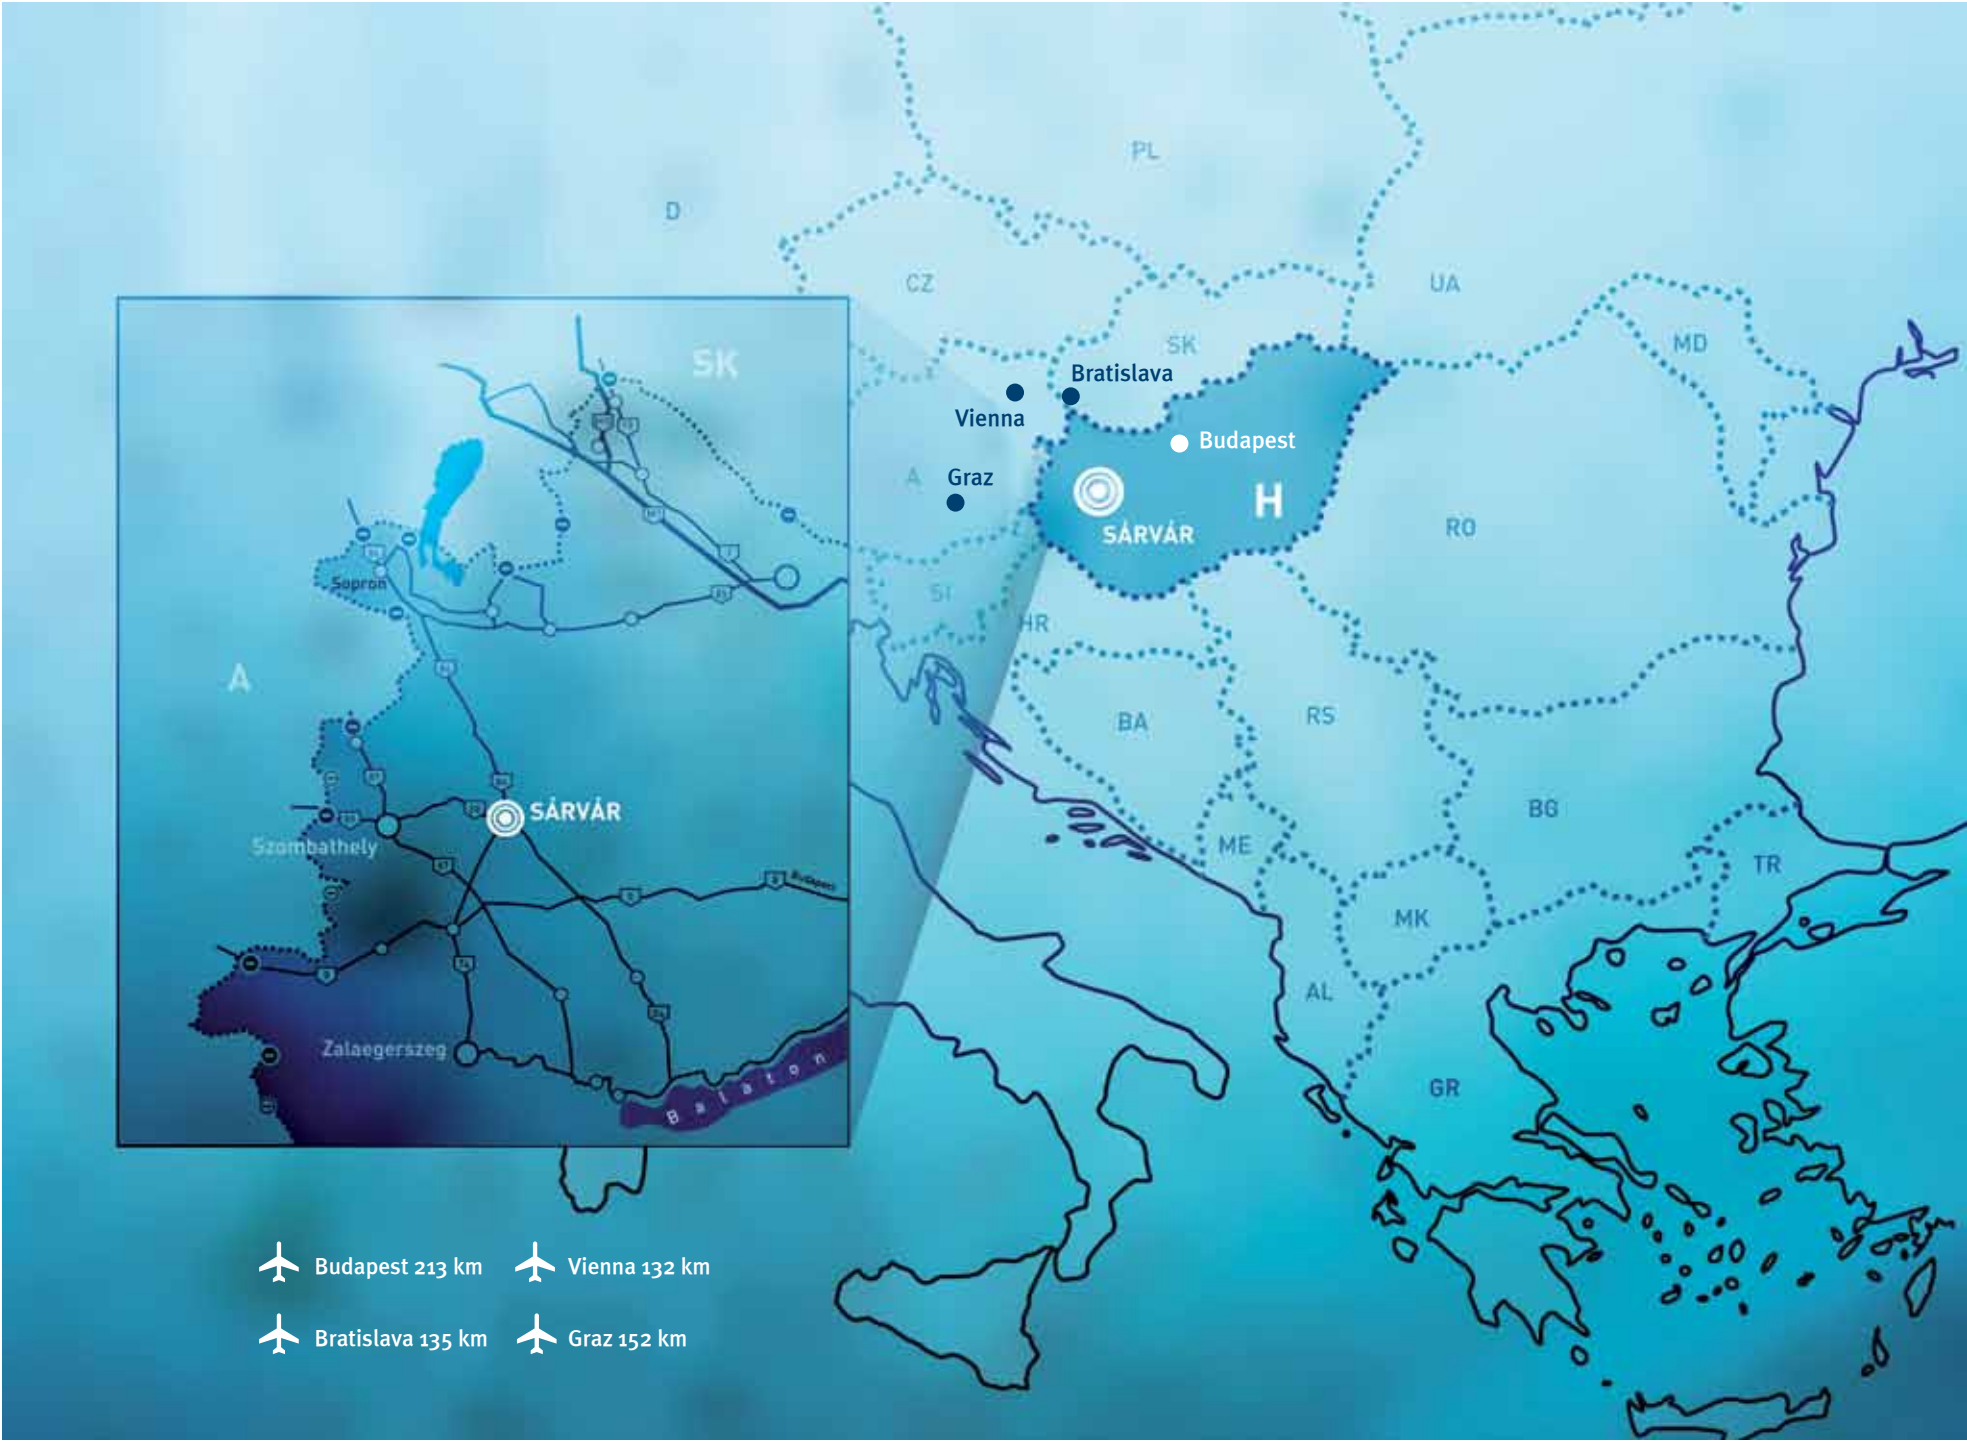

### *Back to the origins – a crystal clear experience*

The - may be too human - harmony of body, soul and spirit, would not be total without the experience of the dissolution into nature. The intimacy of a lovers' walk in the arboretum in spring, the silence of silent strikes of the oars on the lake, the red autumn leaves of the Wild garden's trees or the winter scene taking a look into a warm home: this all opens new perspectives for tomorrow.

*Arriving in any season Sárvár will always be the place where new perspectives open for us – a crystal clear experience of joy, harmony, life and plenitude.*
